

IMPORTANT EMERGENCY INFORMATION REGARDING YOUR GAS SERVICE

ONLY IN THE EVENT OF A NATURAL DISASTER OR EMERGENCY – IF GAS IS ESCAPING FROM YOUR SYSTEM:

It is important to know exactly where your gas meter is located and how to shut it off in case of emergencies (see diagram A).

IF YOU TURN OFF YOUR GAS, IT IS YOUR RESPONSIBILITY TO IMMEDIATELY NOTIFY THE COBDEN MUNICIPAL GAS SYSTEM (893-2425 OR AFTER-HOUR EMERGENCY NUMBER 559-7406). FAILURE TO DO SO WILL RESULT IN A \$50 PENALTY.

Diagram A

CAUTION: If you turn off your gas at the meter, leave it off. Don't turn it back on yourself. Have The Cobden Gas Department turn it back on and relight the pilot lights.

For safety, a shut-off valve should be installed at every gas appliance. If a leak occurs at a specific appliance, the valve will permit you to turn off the gas at the appliance rather than shutting off all gas service at the meter. Some valves require a wrench to turn them.
